EMS
Electro Muscle Stimulation (EMS) uses low frequency current to target every major muscle group - individual sections can be trained and stimulated more or less powerfully depending on daily form and intensity without stressing the heart or joints. Unlike conventional EMS training devices, Future Fitness training concept will stimulate agonist and antagonist plus deep muscle groups
*PLEASE NOTE 20MINS SESSION = BHOURS OF GYM

Prices
Strength and Tone
R300 / session
Cardio and Personalise
R300 / session
Purchase sessions upfront and get amazing discounts.
